Achievements

Webinar “communication and social media strategies” where **18 young women** attended.

Eight virtual meetings were held with provincial coordinators to tutor the preparation of activity reports.

The **training ‘promoters for gender equality and environmental protection’** consisted of four webinars on the relationship between climate change, gender, the international, national and provincial normative framework, and political advocacy, developed during the first period of the project

For dissemination **500 plantable postcards** and an **ecofeminist calender** or the knowledge and dissemination of key global dates on feminist and environmental topics were produced.

A virtual meeting was held which included a presentation for the exchange of territorial experiences, strategies and good practices.
