## About

The #women2030 is a programme run by a coalition of 5 women's rights and gender equality organisations. Our goal is to build capacity of women's and gender civil society organisations (CSOs) working and engage them in the policy processes of Agenda 2030 (Sustainable Development Goals,SDGs) and the Paris Agreement (on climate action). We work together with local partners to achieve these goals, by facilitating participation in policy development and monitoring, mobilizing citizens' support, and sharing of best practices.

## How we work

In our pursuit to achieve a more equitable, inclusive and sustainable development, we organise #women2030's activities into 3 programme areas:

- Capacity building and strengthening of women's and gender civil society organisations
- Policy monitoring and advocacy with meaningful public participation of women from different backgrounds
- Outreach and awareness raising to promote and increase awareness about gender equality
