# Methods for Monitoring

The image displays several screenshots from the Gender Climate Tracker application. On the left, the main menu is shown with a green background and a white arrow icon. The menu items are: INTRODUCTION, GENDER MANDATES IN CLIMATE POLICY, WOMEN'S PARTICIPATION STATISTICS IN CLIMATE DIPLOMACY, GENDER AND NATIONALLY DETERMINED CONTRIBUTIONS, RESOURCES AND EVENTS, and ABOUT THE APP.

Two smaller screenshots show data for Australia and Sri Lanka. The Australia screenshot displays 'WOMEN'S PARTICIPATION STATISTICS IN CLIMATE DIPLOMACY' with a table of meetings in 2015:

Meeting	Women out of total delegates	Percentage
Geneva (Feb 2015)	2 women out of 8 total delegates	25.0%
Bonn (June 2015)	7 women out of 14 total delegates	50.0%
Bonn (Aug/Sept 2015)	6 women out of 12 delegates	50.0%

The Sri Lanka screenshot displays 'GENDER & NATIONALLY DETERMINED CONTRIBUTIONS' with an analysis of NDCs, a timeframe of 2021-2030, and a relevant context: 'Developing country (the vulnerable to the adverse climate change)'. It also includes a description of monitoring implementation: 'The INDC states: 'Lanka has already integrated plans

The largest screenshot shows the 'GENDER AND NATIONALLY DETERMINED CONTRIBUTIONS' interface for Angola. It features a world map with a dropdown menu to 'Choose a Country' and a search bar. Below the map, the 'Angola' section is visible, containing the following information:

**Angola**

**Analysis of NDCs** | [Gender Analysis of NDC's Summary](#)

**Timeframe**  
2030

**Relevant context**  
Angola is a developing country extremely vulnerable to climate change impacts such as drought and floods. The Angolan economy has been hit hard by the impact of climate change expressed as prolonged drought, damaging flash floods, forest fires, reduced crop production, reduced water resources, impacted fishing resources, etc. Many of the economy sectors of Angola have been impacted by climate variability in the last thirty years.

**Process for developing NDC**

# Enabling Environment

---

## Legal/ Consultative/Normative

- Gender budgeting
- Education
- Quotas/ Participation
- Family friendly policies
- Access to SRHR
- Investment in autonomous women's movements
