

BLACK SEA WOMEN'S CLUB

With hope for our Common Future

2022

Project summary

BSWC are a regional network of women leaders and feminist NGOs oriented to the sustainable development of the Black Sea region. Once the war started, BSWC reoriented towards addressing the **most urgent issues** of the Ukrainian people. Other than addressing the most urgent needs, the “With hope for our Common Future” project also looks towards building **a more sustainable future** and to increase the capacity and confidence in the future of women and girls.

Victoria Koval

Participant of the Children want peace project

“My peaceful staying in Georgia impressed me very much. Everyone wanted to take a picture with us, and we felt like real heroes - we heard words of support for Ukraine and admiration for the courage of Ukrainian soldiers and the Ukrainian people.”

Achievements

DBSWC helped children from Ukraine to celebrate and participate in the XV International Basin Contest "Colours of the Dniester"

Together with several partners, BSWC implemented the “**Children want peace**” project. This project allowed for children of Ukraine’s defenders and children of volunteers to travel to Georgia. In total, **30 children** were able to go on summer camp in Georgia.

BSWC did research on how to best build and equip shelters in the cellars of apartment buildings. The basements of more than 600 houses were inspected. Information regarding shelter organising was spread to more than **600 HOAs and housing cooperatives**, reaching over 140000 residents. Shelters were organised in 7 houses, offering protection to more than **1500 people**.
