

WECF E.V. GERMANY

Ecofeminist Scorecard for the EU elections

2024

Germany

Project summary

The purpose of WECF e.V. Germany's project was to hold an interactive workshop format for engaging young feminist activists in the European Elections.

Julika Zimmermann

Communication Officer WECF Germany

"We are proud of our very successful workshop with super active and interested participants, which we link to our good preparation and great teamwork. Everything went so smoothly, there was such great energy and feedback from the participants. We are also really proud of our communication work. Trying to be locally visible to that extent for the first time in such a short time with limited resources was definitely a success."

Achievements

The **EU Elections Toolkit** was translated into German.

As a result of the workshop, **the Ecofeminist Scorecard** was successfully developed.

The workshop significantly **promoted political engagement**, as well as creating a sense of community through the interactive collaboration between the participants.

The University of Leipzig requested a lecture due to the successful public relations work for the workshop. Around **30 students** attended the lecture on the importance of ecofeminism in the (then) upcoming EU elections

An **article on the extreme right movement** in the German political landscape was published.
